DETAILED ACTION

This Office Action is in response to an amendment filed 8 November 2007 in which claims 1-5 were amended and claims 6-17 were added. Claims 1-17 are pending.

Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-17 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest an autostereoscopic display including "a display screen that includes a number of openings," "a cylindrical lens for focusing the collimated light onto the openings of the display screen" and "a scanning means to sequentially scan the image from the cylindrical lens over said opening on the display screen" as set forth in the claimed combination.

Cossairt et al., US 2005/0213182 A1 discloses in fig. 1 an autostereoscopic display including a means for providing collimated light (120) to a display array (140), a scanning means (130) and lens system (150) to focus light onto a display screen (160) but does not have a display screen that includes a number of openings and a cylindrical lens for focusing the collimated light onto the openings of the display screen as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
